

Kitsap County

Local Emergency Planning Committee

May 28, 2019, 1:00 pm

Kitsap County Emergency Operations Center

Minutes

Opening Remarks and Housekeeping

Introductions

Review Previous Minutes – Minutes from the previous meeting were reviewed and accepted

State Emergency Response Commission Meeting – Herb Jewell presented information from the most recent State Emergency Response Commission Meeting.

Recent Hazmat Incidents – Tom Malley presented information on three recent hazardous material incidents:

- An explosion of a truck carrying Ammonium Nitrate
- A leak from a truck carrying Anhydrous Ammonia
- A radioactive contamination incident at the University of Washington

Annual LEPC Conference Report -- Jeffry Rodin briefed the committee on the annual LEPC conference. He stated that the conference was informative and is worthwhile to attend.

10th Civil Support Team – First Sergeant Joseph Schooler provided information about the capabilities of the 10th Civil Support Team. The CST can provide a multitude of resources if called upon. In addition to lab support, the team can provide cross-band radio communications and decontamination services in the event of a major hazardous material incident.

Good of the Order – Committee members discussed resources available in Kitsap County for responding to hazardous material incidents. A list of resources is included in the Hazardous Material Emergency Response Plan. This list will need to be updated during the next change to the ERP.

Next Meeting Date – November 19, 2019
